Dear The Federal Communications Commission,

Please do not increase our phone bill. The lower and middle class should not have to pay for services used in excess by large companies.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you for listening.

Paula

Sincerely,
